Singh, A. 2025. Awareness Report on Central Seed Act Programme for Adopted Seed Rearers of Udhampur District J&K (UT). *Vigyan Varta* 6(7): 1-3.

#### **ABSTRACT**

An awareness program is designed to inform and educate a total of 100 numbers of Adopted Seed Rearers (ASRs) from three distinct seed areas viz., Suntha, Thill and Hartaryan have participated under Central Seed Act Programme. These programs aims to raise awareness about Central Seed Act among Adopted Seed Rearers, chawki rearers, silkworm seed producers regarding Central Seed Act Regulations (2010), various provisions under Central Seed Act and what are the benefits..

#### **INTRODUCTION**

ilkworm Seed Production Centre, Udhampur conducted Central Seed Act Awareness Programme at SSPC Udhampur on 27.02.2025 by covering 100 Adopted Seed Reares of three seed zones *viz.*, Suntha, Thill and Hartaryan, P3 & P2 basic seed, CRC in-charges & grainage in-charges of DoS, SDD, Udhampur participated in the programme. Dr. P. Kumarasen, Scientist-D, Nodal Officer (Seed Act) CSR &TI, Pampore

J&K was the chief guest of programme and briefed about the Central Seed Act Regulations (2010) & explained in detail about the provisions under Central Seed Act, the objectives and its benefits. He advised the Adopted Seed Rearers as well as the chawki rearers, grainages incharges and Basic seed stations In-charges of SDD, J&K to register and renew their registrations time to time.

Report

Singh (2025)

Vol. 6, Issue 7

The Adopted Seed Rearers are briefed by Dr. Amardev Singh, Scientist-C & Incharge of SSPC, Udhampur, on bivoltine seed rearing, mulberry cultivation technologies for tree plantations, the importance of pre and post disinfection and hygiene maintenance during seed crop rearing for quality seed cocoon production, and and how to mitigate the climate change in the coming years to minimize the seed cocoon crop loss. Dr. Santosh Kumar, Scientist-D, RSRS, Jammu, gave the ASRs a thorough explanation of mulberry farming methods and taught them how to harvest high-quality mulberry leaves from tree plantations in order to make highquality seed cocoons.

#### **Objective of Central Seed Act Programme**

The aim of the Central Seed Act Programme was to create awareness among Adopted Seed Rearers, chawki rearers, silkworm seed producers regarding about Central Seed Act Regulations (2010), various provisions under Central Seed Act and what are the benefits.

#### **CONCLUSION**

Adopted Seed Rearers (ASRs) are the foundation of the sericulture industry since they are the only source for seed cocoons generations, which is used to produce hybrid silkworm seed. It is necessary they must be
